Ateliers of Europe

This visually stunning love letter to the art of traditional crafts takes readers inside Europe's most illustrious, and in many cases endangered, decorative arts workshops.

Beginning in the Renaissance, ateliers were established as places for European artists to work and teach their crafts. Centuries later most of these spaces have disappeared, but a select few continue to produce some of the world's most celebrated and sought-after objects in the areas of crystal, ceramics, wrought iron, fabric, bookbinding, mosaic, wood panelling and more.

Ranging from the well-known to the obscure, this volume takes readers inside dozens of ateliers around Europe. Sumptuous double-page spreads feature alluring photography and fascinating background texts tell their stories. This book offers both a historic evaluation of how ateliers have been shaped by modern forces and also a clarion call for their preservation.

Temporary Pleasure

This unique, visually exciting look at the evolution of nightclubs across America and Europe since the 1960s reveals an unwavering truth about club culture: the one constant is change. **Temporary Pleasure** shows how nightlife spaces have evolved to meet the needs of each differing generation.

Each chapter focuses on a distinct phase and location including New York City's disco scene; Ibiza's counterculture communal retreats; Britain's rave culture; and Berlin's techno scene. The clubs come to life in double-page spreads that feature specs and detailed profiles, while numerous photographs offer their own vibey stories. The book features interviews with people who were involved from NYC disco mainstay DJ Justin Strauss to Ben Kelly, architect of Manchester's legendary venue The Hacienda.

As the world emerges from its Covid-induced isolation, this celebration of crowded rooms, dance-worthy beats and communal transcendence feels more important than ever.
