**Father's Day Campaign**

Let's celebrate Fatherhood, with everything from matching mini me moments to soothing skincare this June. Whether you're treating Dad, Stepdad, Granddad or any of the other amazing men in your life, M&S is a one stop shop on hand to help make their Father's Day.

Get the kids ready to celebrate with our new mini-me offering, featuring style focused separates, cosy matching PJ sets and playful prints, fit for family picnics and sizzling BBQ's - across men's and younger & older boys & girls.

Alternatively, for the sartorially savvy, use the celebration as an opportunity for a stylish wardrobe update, with contemporary men's designs across M&S Collection, Autograph, Sartorial and Originals. And for the dads that just can't sit still, how about something from our Goodmove activewear range.

For something a little more indulgent, there's nothing better than a little me-time. So, set them up with a regime to rival your own, with selfcare buys they'll love. Enter the new Formula for Men skincare range and our recently launched Apothecary grooming essentials. Both formulated to help hydrate and improve the skins appearance for a lifted, rejuvenated feel and that fresh-out-of-the-barbers sharp look.

To all the pocket money shoppers out there, we haven't forgotten about you either as after all, *good things come in small packages*. From Spencer bear socks to matching mugs, we've got the perfect treats to say, 'I Love You', without breaking the piggy bank.

Finally, for the tricksters you just never know what to buy or for those last-minute trolley dashes, give the gift of choice this Father's Day with an M&S gift card.

So, get the date in your diary and celebrate Father's Day in style this Sunday 18<sup>th</sup> June, with love M&S!

XOXO

## Notes to *Editor*

### Our Approach to Sustainability

- Marks & Spencer ensure that 100% of the cotton for M&S clothing is now more sustainably sourced; including cotton sourced as [BCI Cotton](#)
- M&S also use Fairtrade, organic and recycled cotton in clothing
- As the UK's largest clothing retailer, quality underpins everything we do and we make our clothes to last, ensuring that our customers can wear them for years to come and then confidently give them a second life

- Our simple commitment is to send no clothes to landfill, ensuring any unsold stock is redistributed to our charity partners Oxfam, Newlife or SmartWorks
- We make it easy for customers to recycle any used or unwanted clothing with our Shwopping partnership with Oxfam, which has seen over 34 million items donated since 2008 and £22 million raised for people living in extreme poverty
- For every M&S product, our clear goal is to only use responsibly sourced raw materials, including those that derive from animals – for example we've banned the use of angora and alpaca in all M&S products
- We're working hard to reduce, reuse and recycle our use of plastic and through our hanger reuse scheme, we've diverted over one billion hangers from going to landfill since 2007 by reusing or recycling them, even if they're broken
- We were the first retailer to transparently publish details of the 500+ factories that make M&S clothing on our interactive supplier map, which includes the factory location, name, number of workers and gender split
- We take the issue of climate change seriously and 100% of the electricity used to power our UK stores is from renewable sources, while our own operations globally have been carbon neutral since 2012
- This year we have introduced additional information of our sustainability credentials to our website, adding information about the materials making up over 4,000 clothing products to the pages of M&S.com
