LeapFrog's Spring Summer 2023 season launches some exciting new role play toys to add to the range; packed with fun learning features. Cook up a storm with the Build-a-Waffle Learning Set™, whilst learning about foods, colours and numbers. Listen to upbeat waffle songs and fun sounds when cooking. Once ready, select one of the five popular pretend toppings to put on top of your waffle and use the role-play plate, knife and fork to pretend eat!

Learning is delicious with the Fruit Colours Learning Smoothie™! Swivel the straw to choose from five fruit flavours and the cup will change colour to match—this smoothie is bananas! The soft straw acts as a soothing aid for budding teeth whilst the fruity friend plays and introduces little one to reggae, pop and punk music. Shake up the smoothie cup to hear the bubble beads bounce.

VTech and LeapFrog have so many new and innovative products to see at Toy Fair 2023, it really is best for retailers to visit the VTech stand, N19, to see for them themselves.
