

PETLIBRO

One RFID Smart Feeder

Meals made personal

The One RFID Smart Feeder is accessible with a personalized RFID collar tag to ensure each of your pets gets their own meal, as intended. With the Petlibro app, you have complete control to set portions, schedule feedings, and track their dietary goals at your fingertips.

KEY FEATURES:

SCHEDULE MEALS - Automated feeding at your fingertips

Schedule up to 10 personalized meals or snacks a day on the app to fit your pet's dietary needs. Never miss a customized meal time even with a full house.

RFID RECOGNITION - Sorry, food stealers

The RFID reader on the feeder identifies your pet's unique collar tag, ensuring the lid only opens for the intended pet. For enhanced safety and identification, the lightweight (4.2g) tag with a QR code is attached to a snap-release collar.

WIFI-CONNECTED, APP-POWERED - Stay informed

Receive instant app alerts for low food levels and food blockages. You'll always know when it's time to top up or maintain.

FEEDING LOGS - Keep an eye on their health

Check every meal dispensed with the feeding logs, automatically recorded and accessible through the app. So you can easily monitor your pet's eating habits and ensure they're meeting their dietary goals.

QUADRUPLE SEALED - Freshness made easy

Designed with a 3-liter capacity and quadruple sealing, the One RFID Smart Feeder ensures your pet's food stays fresh.

MSRP: £159.99
