SPACE THEMED CODING THAT WILL CHALLENGE YOUNG MINDS

Your child's coding skills will take one giant leap through screen-free play with the Space Rover Deluxe Coding Activity Set from Learning Resources®

Inspired by our best-selling Code & Go® Robot Mouse, the new **Space Rover Deluxe Coding Activity Set** is an ideal way to introduce young children to coding through fun hands-on and completely screen-free play.

Children aged 4 and up **explore simple push-button coding** and build sequences of up to 100 steps while learning early computer science and programming concepts.

Use the activity set's included tile pieces, bridge, space rocks and coding cards to design maze challenges, and plan out how they're going to program their Lunar Rover to **complete the STEM challenges**.

Children operate the Space Rover by pressing the 4 directional arrow buttons on the roof to set up a sequence of up to 100 steps. The arrow buttons are colour-coded to match the set's included coding cards. This allows children to connect the concepts.

This interactive coding robot for young children is **100% screen free**! There are no devices or internet connection needed to set up and use this fun educational toy.

Extend the learning!

Also available is a **single Space Rover** to extend the learning! Powered by simple push-button coding, this coding toy's ready for all kinds of missions - kids can plot their coding path with the coding cards, then send their rover out to grab the magnetic space rocks, meet up with the astronaut figure, and return safely back to base.

Product details:

- Space Rover Deluxe Coding Activity Set (LER 3114) | RRP: £65 | ASIN: B0C1TLPVLR
- Space Rover (LER 3115) | RRP: £40 | ASIN: B0C1TMRZTR

ABOUT LEARNING RESOURCES®:

We're Learning Resources®, and learning is where we play! With 40 years of experience, our family-owned company's mission is to offer children educational toys for infinite inspiration to succeed in school and beyond. From ABCs and 123s to fine motor, coding and STEM, our award-winning products help children discover countless ways to develop a lifelong love of learning while they build new skills. That's why our products are recommended by teachers, trusted by parents, and loved by children. Our company holds the global master toy license for Numberblocks, the award-winning TV series that helps children build a solid foundation in maths principles. In 2022, Learning Resources expanded our dedication to learning and enrichment with Brightkins™, a line of interactive pet training tools and toys that help families discover bright ways for pets to play, and Hunger for Words™, a range of pet communication tools and resources.
