

PRESS RELEASE**INTRODUCING THE DUALIT
MILK FROTHER**

Dualit's Milk Frother is the ideal partner to any coffee machine but it's not just the finishing touch for your gourmet blends; you can also liven up ordinary instant coffee or enjoy rich hot chocolates topped with freshly frothed milk. Or why not indulge in a smooth latte with velvety heated milk? For versatility, you can even make milkshakes in a matter of moments with the cold froth option.

Stylish and compact, the cordless Milk Frother can create 250ml of hot milk or 150ml of hot or cold froth in just 70 seconds. At the touch of a button you can enjoy a coffee, hot chocolate or milkshake just the way you like it.

Consistently striving to make products as user friendly as possible, the patented, magnetic removable whisk gives a fully sealed drive, which together with the completely smooth, non-stick interior and motor overrun makes the Milk Frother extremely easy to use and clean. Designed to be used with or without the lid, the Milk Frother won't spill while non-slip rubber feet and automatic switch off provide peace of mind.
