With so many things up in the air these days, keep life fun and never grow up with high-flying toys for all the family from **Waboba®**. Invented in Sweden in 2005 with the original "ball that bounces on water", millions of land and water balls are sold in over 70 countries every year, bringing family, friends and dogs together to play outdoors.

Brilliant garden games are par for the course as frisbee meets golf with the new **Backnine (SRP £19.99)**. Throw the Flying Target Ring to set the course challenge, then throw your Wingman disc to land on or inside the ring with the least amount of throws.

For extra fun, make up rules when a disc lands in a zone on the ring. Easy to set up, this portable package includes a carry bag, flying target ring, four flexible silicone Wingman discs and a scorecard. See Backnine in action [here](#).

Step up your game and enjoy wild water adventures this summer with the **Pro Water Ball (SRP £8.99)** from the Elite Series. Designed for advanced sport performance, its larger signature gel core than the Original and Extreme Water

Balls makes it bounce faster, further and higher, while the lycra cover provides extra buoyancy. Best for open water play in the sea, lakes or rivers, so you can spread out, it suits ages 10+, ensuring summer holidays fun. See Pro in action [here](#).
